ElectricLime Speaks: #2 - The Dictionary

Here is my list of all words that it's possible to say in VMK:

[allowed-words.txt](#)

And if you feel particularly geeky, here's the Perl script I used to generate that from the dictionary file.

[allowed-words.pl](#)

And now for the payoff: here are all the VMK allowed words that aren't found in a standard English dictionary.

[nonsense-words.txt](#)

So you can spice up your VMK conversations today with such words as 'wouldest', 'underly', 'troughes', 'pleaklies', and 'celebrationen'.

Trivia: The longest words you can say in VMK are 'environmentality', 'prestidigitation', 'prestidigitonium', and 'supercalifragilisticexpialidocious'.
